

AdBlue / DEF IBC Dispensing System

Wavian
Blue

The Hill Pumps air operated AdBlue IBC dispensing unit is perfect for effortlessly transferring AdBlue directly into trucks, agricultural and commercial vehicles and an extensive range of passenger cars.

The unit comes complete and is ready to go - just plug and play

Air operated AdBlue Pump
Automatic shut off dispensing nozzle
Electronic flow meter
All hoses & fittings

No electricity required, just plug into the workshop airline and pull the trigger.

Can be used outside too as many workshops have an airline fixed or reaching outside.

Product code : 2047-007
